ICT FOR MIGRANTS KA210-YOU

EDUCATIONAL MOBILITY IN BURSA

The educational mobility of our "ICT FOR MIGRANTS" project, which took place with the participation of all project partners, started with a meeting in Bursa, the historic city of Turkey. It was organised by KEPDER.

On the first day of the project, the EU-HUMANACT team presented strategies to improve the processes of communication and learning with young migrants. The EUROSPEAK team, for its part, shared with us a study in which practical advice was provided in the application of communication strategies.

During the first day of the project, the team also visited and interacted with the Ukrainian Association of Bursa, a local organisation that works with Ukrainian immigrants. The first day of the project was a promising start for further collaboration on this project. During the second day of the meeting, the KEPDER team shared their success stories and experiences of working with Europe. All partners reviewed the important details of the project process, assessed the main points and provided feedback.

On the last day of the project, an in-depth discussion took place on the details and preparation of the project guidelines.

Details of the meeting, which will take place in Zaragoza from 20 to 24 May, were discussed. The transnational meeting ended with successful presentations and a certification ceremony was held for the participants.

Stay tuned for more details and updates. We will continue to share exciting details about this project with you.
